

## **IOSH - Institution of Occupational Safety and Health - IOSH Managing Safely Course**

### **Course Information**

The IOSH Managing Safely Course is delivered over 3 days either as an open classroom course, which we deliver at our [training centres](#) monthly in Hull & Leeds or as a corporate training with 4+ delegates attending the course anywhere in the United Kingdom.

Understanding of the course material is evaluated by means of a 45-minute written assessment paper consisting of 20 multi-format questions and a practical assessment.

An IOSH Managing Safely certificate is awarded to all those who attend the course and successfully complete both the written and practical assessments carried out by our trained professionals.

All courses are open to those wishing to be accredited in Managing Safely through IOSH.

### **Who needs this qualification**

Managers and supervisors in any sector and any organisation who are required to manage risk and resources within their organisation.

If you don't think this course is right for you, then take a look at our [IOSH Working Safely Courses](#) or find out more information about what [IOSH courses](#) are for.

### **Course Content**

The course has 7 modules (units)

- Introducing Managing Safely
- Assessing Risk
- Controlling Risks
- Understanding Responsibilities
- Understanding Hazards
- Investigating Incidents
- Measuring Performance

### **Why is this training important**

This course will teach delegates the need to understand their obligations with regards to Health and Safety and also understand the benefits of having a Health and Safety Management system in place within their organisation. A robust Health and Safety Management system is a key function in any industry. The Health & Safety at Work Act 1974 require all employees to provide a safe place to work. To do this they must undertake risk assessments on all activities and control those risks, so far as reasonably practical. This course will give them the knowledge to comply with the Health and Safety at Work Act 1974.

#### **Frequently asked Questions**

##### **What is IOSH Managing Safely?**

**Answer:** The IOSH Managing Safely 3 Day Classroom Course is designed for anyone who has a requirement to Manage Health and Safety within their workplace.

##### **How long is the IOSH Managing Safely Certificate valid for?**
