

IOSH - Institution of Occupational Safety and Health - IOSH Working Safely Course

Course Information

A one-day course offering all the basics in a high impact interactive package;
Fantastic quality animated graphics created exclusively for the course.

- A presentation that's designed to be fun and get people fully involved and interested.
- First class, jargon-free technical content based on what people need to know in practice, not off-putting legal language.
- Clear scenarios drawn from genuine work situations to drive home practical points.
- Assessments built into the day's training – no need for follow-on tests on separate days, taking up valuable time.

All courses are open to those wishing to be accredited in Working Safely through IOSH.

Who needs this qualification

This IOSH Working Safely Course is for people at any level, in any sector, needing grounding in the essentials of health and safety. Minimum disruption to working days and shifts – the one-day programme includes the assessment, so there's no need to free up further time for a test after the course.

If you don't think this course is right for you, take a look at our [IOSH Managing Safely Courses](#) or find out more information about what [IOSH courses](#) are for.

Course Content

- Introducing working safely
- Defining hazard and risk
- Identifying common hazards
- Improving safety performance

Why is this training important

Everyone at work should have an understanding of why they must 'work safely' – and this course offers exactly that.

This course is not supposed to turn delegates into safety experts. It focuses on why health and safety is important, and how individuals can make a real difference to the well - being of themselves and others through changing their behaviour.
